

MASTER OF ADVANCED NURSING

TRAUMA NURSING

The specialist trauma nurse has the detailed knowledge and expert skills to assess and manage the seriously injured, along their journey. Offered in partnership with Alfred Health and National Trauma Research Institute, this specialisation will give you an understanding of complex trauma care and leadership skills for advancing quality of care.

If you are a nurse caring for patients who have experienced trauma and require specialist trauma knowledge, then this is the specialisation for you.

Study frameworks for advancing engagement with patients who have experienced trauma and their families and consumers.

Explore a variety of leadership activities associated with advancing quality of care, achieving team outcomes and supporting multidisciplinary engagement.

In the Trauma Nursing specialisation you will:

- Study theoretical principles of trauma care, from injury to rehabilitation and reflect on problem solving in relation to clinical scenarios
- Explore the cause and mechanics of trauma injuries, and relate this to contemporary management of patients
- Explore holistic person and family centred care and appropriate therapeutic interventions for patients related to a range of trauma injuries and experiences.

COURSE STRUCTURE

CORE UNITS (Part A)

NUR5500 - Trauma nursing 1
NUR5510 - Trauma nursing 2

COURSEWORK OR RESEARCH (Part B)

You have the choice of completing either a coursework or research stream. Choose from a range of electives in areas like nursing education and leadership, or undertake a minor thesis or research project.

You may be eligible to exit early with a Graduate Certificate or Graduate Diploma in Advanced Nursing if the award requirements have been met.

Visit monash.edu/study/course/m6006 to see what you'll learn in the Trauma Nursing specialisation.

Part of AlfredHealth

ntri national trauma
research institute

Established by Alfred Health and Monash University, the National Trauma Research Institute and Monash Nursing and Midwifery have created, developed and designed this course in response to an increase in demand for specialised nursing training in trauma care. This specialisation will be delivered by nurses who are experts in trauma care and trauma education.

ELECTIVES

As part of this Master's degree, you'll have the opportunity to customise your degree around your interests, with a choice of electives. You can pick nursing electives, or even units from another area of study (with the permission of the course convenor).

Explore a list of approved electives at handbook.monash.edu/current/courses/M6006

If you are studying in the on-campus mode you may need to attend either/both the Clayton and Peninsula campuses depending on where your elective is offered and some travel between campuses is expected.

RESEARCH PATHWAY

Monash is recognised globally for research excellence. As part of the Master of Advanced Nursing, you may have the opportunity to work on a nursing research project, with one of our expert supervisors. Completing this can be used as a pathway to a graduate research degree, such as Doctor of Philosophy.

WHY CHOOSE MONASH?

- Content developed and delivered by recognised experts
- Flexible learning delivery modes – study on campus or online
- Study by all coursework or combine coursework and a minor thesis
- Elective units allow you to meet your career aspirations
- Network with like-minded nurses wanting to advance their careers
- Ranked #15 in the world for Nursing (QS World University Rankings 2021)
- **COMMONWEALTH SUPPORTED PLACES (CSP) AVAILABLE** - this means your fees could be partially covered by the Federal Government.

"I was a Clinical Nurse Specialist at the Alfred Trauma Services & Emergency departments for a number of years and I have substantial experience in developing, facilitating and organising trauma education and resuscitation courses in Australia and overseas."

Ellaine Boo

Education Lead, National Trauma Research Institute and Trauma Service, Alfred Health
